

美国数据中心建设全景

All-company U.S. data-center construction panorama

结论先行：在“公开可识别、2024–2030 有新建或重大扩建信号”的证据定义下，本报告保留 **208 个 unique project masters**。它们不是“全美所有现存设施”，也不是不可知的保密建设总数。

208 masters 185 detailed + 23 seed-only 51 jurisdictions 513 county actions 2024–2030 Gantt

执行摘要 / Executive summary

“all”在这里的含义是：在冻结证据中能够公开识别、定位到美国项目/园区并有建设周期相关信号的项目全集；它不可能覆盖未命名、保密或未留下公开记录的建设。主计数 208 应准确拆解为 **185 个 Phase3/region detailed projects** 与 **23 个 retained seed-only evidence-gap records**。一条 DAF solicitation 与四条 aggregate/undisclosed seed records 是排除项，不是 physical projects。

状态口径：宣布（announced）、地方程序（local process）、已批准/获许可（approved-permitted）、场地施工/建设（site work-construction）、已通电（energized）、部分上线（partial live）、全面建成（full buildout）彼此不等同。实证事件用实线；未来目标与模型尾段用虚线。

208

唯一 master projects
185 detailed + 23 seed-only

186

accepted Phase2/3 timeline candidates
185 physical rows shown; DAF solicitation excluded

513

county/city/state/utility actions

51

jurisdictions covered
6 zero-result: CT/DC/DE/FL/NE/VT

8

live-only baselines
appendix-only, not Gantt rows

53

announced / evidence-gap appendix rows

不可混淆的四个边界

项目计数 ≠ 设施存量

208 是 unique project masters，不是所有既有 U.S. facilities。普通既有 OCI regions 与无 active expansion 的 live baselines 只在附录。

能力数字保留 scope

Phase、ultimate scope、reported MW、investment USD 与 buildings 分栏保留；不把美元/平方英尺换算成 MW，也不把 unresolved identities 相加。

Gantt 是证据化候选时间线

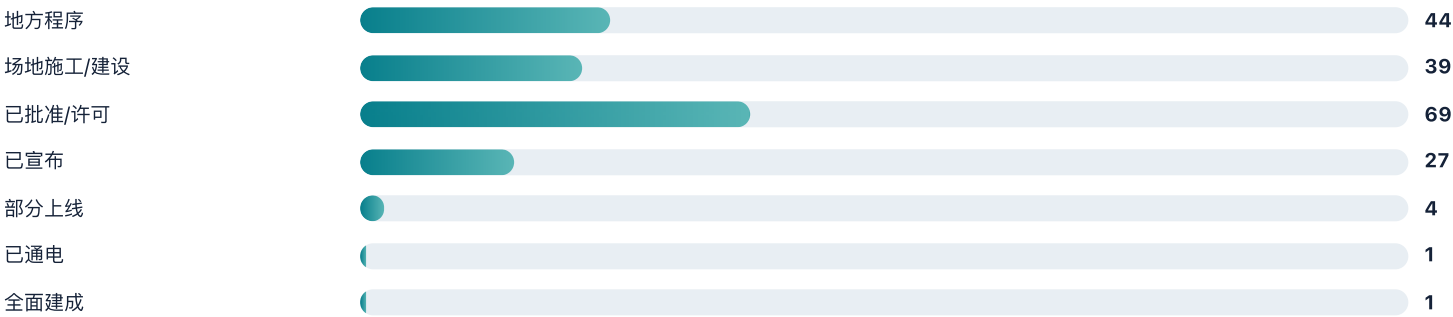

186 accepted candidates 由 Phase4 v2 生成；其中 DAF solicitation 无 selected physical project，因此物理呈现为 185 行，并在 exclusions 保留。

精度从不被补造

day/month/year/undated/snapshot 等原始精度保留；未标日期的 action 不被伪造为具体日。

状态分布 / Status distribution

下图统计 185 个 detailed physical rows; 23 个 seed-only records 不被强行映射为同等深度的物理阶段。

n=185; seed-only records excluded from this distribution

 solid = source-backed actual
  dashed = projection / modeled uncertainty

州与辖区矩阵 / State & jurisdiction matrix

"seed / Phase2 / Phase3"是覆盖层级，不是可直接相加的独立项目数；master count 是去重后的报告主记录数。零结果是定向搜索结果，不是绝对不存在证明。

[illegible]

Jurisdiction	Master	Seed	Phase2	Phase3	Finding / caveat	Sources
Indiana IN	10	8	9	9	qualifying projects found Official state page accessible; it does not publish a county/town vote tally or a building-by-building completion register.,IDEM PDF is public and searchable; the meeting is an agency permitting proceeding, not a local zoning vote.,Official technical-support document accessible; the initial permit PDF's signature/date fields are not rendered in the indexed copy.,IDHS portal is accessible but the public result is a filing view; it is not evidence that all listed buildings are complete or occupied.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +20
Georgia GA	8	2	7	7	qualifying found Notice is a construction-activity notice and does not publish the underlying permit number.,Agenda/staff request is not substituted for minutes or a vote tally.,City summary page was accessible; full packet and minutes were not located in the same search.,Accessible city summary; underlying appeal filing and final disposition document were not located.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +15
Oklahoma OK	8	2	8	8	qualifying projects found; state commerce, city packets, utility, company, and local queries Official state page accessible; it does not expose the Port lease, parcel-level permit register, inspections, or energization record.,Non-government report; no associated Muskogee permit or utility filing was located.,No indexed Port or city project docket exposing the complete permit and lease file.,Official state page accessible; groundbreaking and investment are not a substitute for Tulsa building, grading, or occupancy records.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +8
Arizona AZ	7	3	7	7	qualifying projects found; ACC, Maricopa/Mesa/Pima records, operators, and local queries Official state page accessible; it does not expose the Port lease, parcel-level permit register, inspections, or energization record.,Non-government report; no associated Muskogee permit or utility filing was located.,No indexed Port or city project docket exposing the complete permit and lease file.,Official state page accessible; groundbreaking and investment are not a substitute for Tulsa building, grading, or occupancy records.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +7
Minnesota MN	7	2	6	6	qualifying projects found Company announcement; it does not establish a city/county approval, building permit, actual groundbreaking, or energized service.,Company infrastructure claim; no municipal, KDHE, EPA, or Evergy permit/interconnection closeout was retrieved.,City resource page and regulatory context; absence of a posted project file is preserved and no approval is inferred.,City page links project-specific information but reviewed public results did not expose a matching case file.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +8
Virginia VA	7	3	5	5	qualifying found County summary is the accessible official record; the agenda packet is separately linked in the official Agenda Center.,County project page reports the action; a separate EDA minutes packet was not located.,The county's announcement and agreement are accessible; the agenda/minutes page does not expose a separate vote tally in the accessible text.,Official DEQ project page was readable through the agency page; no final permit decision was posted by the cutoff.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source +31

Louisiana LA	1	1	1	1	qualifying found Company announcement is accessible; no linked city or county approval packet was identified.,State report is an economic-development record, not a city site-plan or building record.,Auburn exposes a public permit portal and planning entry point, but no matching project record was returned in the accessible search; this is a negative search, not proof that no record exists.,The source is trade press rather than the underlying Google, county, or TVA record; it is retained as the Phase 2 lead and not treated as a permit or vote.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source source
Montana MT	1	0	1	1	one public proposal found but stalled/paused Company announcement does not publish a Denver permit, inspection, or CO number.,Operator page is not a governmental inspection or energization record.,The public page is a process page; the project-specific e-permits record was not accessible in the reviewed search.,Negative search only; e-permits/project records were not exposed in the reviewed public surface.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source
New Mexico NM	1	1	1	1	one major qualifying project found Company announcement does not publish a Denver permit, inspection, or CO number.,Operator page is not a governmental inspection or energization record.,The public page is a process page; the project-specific e-permits record was not accessible in the reviewed search.,Negative search only; e-permits/project records were not exposed in the reviewed public surface.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source source source
Rhode Island RI	1	0	1	1	Hanton City/Revity Smithfield proposal, locally blocked; no construction verified. Local reporting; not a lease, land-use, building, air, water, or utility permit.,The cited page is a nonprofit/local analysis of state lease documents; the underlying final DNR disposition was not retrieved.,Ledger sources include local/nonprofit reporting; reviewed record did not expose final official lease or permit file.,The public-notice page is an application notice; a final decision and later inspection file were not exposed.,Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	source source source source source
Connecticut CT	0	0	0	0	No qualifying new build or major expansion verified after targeted searches of CT DECD, CEQ, Hartford and planning material; Hartford AI-center references do not establish data-center construction. Zero-result note: No qualifying new build or major expansion verified after targeted searches of CT DECD, CEQ, Hartford and planning material; Hartford AI-center references do not establish data-center construction. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	

Jurisdiction	Master	Seed	Phase2	Phase3	Finding / caveat	Sources
Delaware DE	0	0	0	0	searched; no qualifying project found Zero-result note: Rumor/withdrawn leads lacked current site-specific evidence. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	
Florida FL	0	0	0	0	searched; no qualifying project found Zero-result note: Operational/ordinary colo references lacked current major expansion evidence. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	
Nebraska NE	0	0	0	0	searched; no qualifying project found in this pass Zero-result note: No stable, named new-build/major-expansion record with current 2024-2030 construction/approval evidence survived search; this is not proof of absence. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	
Vermont VT	0	0	0	0	No large-scale project proposed or sited found; Vermont Public and VNRC explicitly report no AI/crypto or large-scale project. Zero-result note: No large-scale project proposed or sited found; Vermont Public and VNRC explicitly report no AI/crypto or large-scale project. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	
District of Columbia DC	0	0	0	0	searched; no qualifying project found Zero-result note: No new-build campus identified inside District boundaries. Government portals, imaged packets, and live search systems may not expose every permit or inspection record in the retrieved pass.,Company, trade, and local-press sources are retained as evidence but are not treated as a vote, permit, energization, occupancy, or live-service record without that record.	

2024–2030 证据时间线 / Evidence-backed Gantt

Phase4 accepted counts: **186 candidates / 1,072 events / 131 projected spans / 38 construction anchors**。为保持物理项目边界，默认展示 185 个 detailed physical rows；DAF solicitation excluded 仍在排除附录中。没有 construction/site-work、energization 或 live-service anchor 的项目不会被推断出 construction bar。

如何读：青色竖线为 actual event；橙色/红色虚线条为模型化 first-usable/full-buildout uncertainty tail。低 confidence 的 projection 使用红色虚线；SC-004 QTS York 维持 approved/permitted，没有 construction anchor。

USDC-0001 · Core Scientific Auburn HPC facility AL-001 · 1571 W Samford Ave HPC facility / Core Scientific Auburn / Core Scientific Auburn HPC facility	Auburn Lee County, AL	地方程序 / local process announced/early development; no building permit, energization, or service record located	Core Scientific MW=40; investment USD=\$424,000,000; basis=Alabama state announcement; MW and investment are not independently reconciled	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Auburn site-plan/building permit, utility service record, and construction/commissioning update.
USDC-0002 · Google Jackson County data-center expansion AL-002 · Google Alabama data center / Google Jackson County data-center expansion / Widows Creek/Bridgeport Google facility	Bridgeport area Jackson County, AL	地方程序 / local process announced major expansion; permit, construction and energization not verified	Google · TVA investment USD=\$1,500,000,000; basis=Google/press-reported two-year expansion	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Google announcement, Jackson County parcel/site-plan record, TVA load/service agreement, building permits.
USDC-0003 · AVAIO Digital Leo / Little Rock AI-ready data-center and power campus AR-001 · AVAIO Digital Leo / AVAIO Digital Leo / Little Rock AI-ready data-center and power campus / AVAIO Little Rock AI-ready data-center and power campus	near Little Rock/Wrightsville Pulaski County, AR	地方程序 / local process announced/utility-contracted; physical construction not validated	AVAIO Digital Partners · Entergy Arkansas MW=150; anticipated MW=1000; investment USD=\$6,000,000,000; full_buildout_investment_usd=\$21,000,000,000; acres=760	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Pulaski County site plan/permit, Entergy service agreement, environmental/water permits, groundbreaking and first-power record.
USDC-0004 · QTS Fayetteville / Project Excalibur GA-001 · Project Excalibur / QTS Data Center Campus / QTS Fayetteville	Fayetteville Fayette County, GA	场地施工 / construction under construction with active expansion; some city approval path disputed/withdrawn; water accounting issue unresolved	QTS · Blackstone · Georgia Power · Fayette County Water System investment USD=\$1,000,000,000; buildings=13; planned buildings=16; sq ft=6200000	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: Building permits/COs by building, final site-plan/appeal disposition, utility and stormwater records.
USDC-0005 · Project Sail / Atlas Development–Prologis Coweta campus GA-002 · Atlas Development / Prologis Coweta campus / Atlas Development LLC campus / Coweta County Project Sail	near Newnan Coweta County, GA	地方程序 / local process proposed and advanced through local/regional planning; no verified groundbreaking, permit, energization, or tenant	Atlas Development LLC · Prologis reported later · Georgia Power MW=900; investment USD=\$17,000,000,000; acres=832; buildings=13	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Coweta rezoning/conditional-use action, executed development agreement, building permits and utility service agreement.
USDC-0006 · Microsoft Union City campus / Burr Computer Environments DRI GA-003 · Burr Computer Environments DRI / Microsoft Union City campus / Microsoft Union City campus / Burr Computer Environments DRI	Union City Fulton County, GA	已批准或获许可 / approved-permitted proposed/DRI-approved; forecast dates not treated as actual	Burr Computer Environments · Microsoft identified in DRI reporting · Microsoft · Georgia Power MW=324; sq ft=2100000; buildings=3	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Union City/Fulton zoning and building permits, Microsoft or developer construction update, utility interconnection.
USDC-0007 · Project Ruby / Muscogee Property 1 GA-004 · Columbus technology center campus / Habitat Real Estate Partners Project Ruby / Muscogee Property 1	Columbus Muscogee County, GA	地方程序 / local process proposed/private secure site; no tenant, permit, vote, construction or energization verified	Habitat Real Estate Partners · Muscogee Property 1 LLC · undisclosed investment USD=\$5,180,000,000; acres=865; jobs=195	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Development Authority board action, parcel option/purchase, zoning/site plan and building permits.
USDC-0008 · Spalding County data-center campus GA-005 · Proposed Spalding County data center campus / Spalding County data-center campus / undisclosed applicant campus	未披露 Spalding County, GA	已批准或获许可 / approved-permitted locally approved per specialist report; construction and sponsor unresolved	undisclosed investment USD=\$3,900,000,000; sq ft=3900000	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Spalding County agenda/minutes, DRI filing, parcel/site-plan and permit records.
USDC-0009 · Pine Ridge Tech Park GA-006 · Eagle Rock Partners Pine Ridge / Pine Ridge Tech Park / Twiggs County proposed data center	未披露 Twiggs County, GA	已批准或获许可 / approved-permitted rezoned/proposed; no permit or construction record located	Eagle Rock Partners · undisclosed · Georgia Power context 未披露	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Twiggs zoning ordinance, site plan, building permit, utility load filing.
USDC-0010 · Microsoft Tyrone data center GA-007 · Microsoft Tyrone data center / Microsoft Tyrone project / Project Rita	Tyrone Fayette County, GA	已批准或获许可 / approved-permitted announced/proposed; approvals and construction not verified	Microsoft 未披露	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Microsoft announcement, Tyrone/Fayette zoning or site-plan record, utility and permit evidence.
USDC-0011 · QTS Cedar Rapids campus IA-CEDAR-RAPIDS-QTS · Big Cedar Industrial Center data center / QTS Cedar Rapids campus	Cedar Rapids Linn, IA	已批准或获许可 / approved-permitted locally approved/early development; construction start and MW not found	未披露 minimum_investment_USD=\$750,000,000; land acres=612; phases=2	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Cedar Rapids permit and construction record; QTS campus MW and phases
USDC-0012 · Project West IA-NORWALK-PROJECT-WEST · Norwalk technology/data-center overlay / Project West	Norwalk Warren, IA	地方程序 / local process announced/under review; explicitly not approved as a data center	未披露 land acres=300	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Named applicant and formal land-use application; utility and permit record
USDC-0013 · Microsoft West Des Moines expansion IA-WEST-DES-MOINES-MICROSOFT · Ginger East campus / Microsoft Project Osmium data center / Microsoft West Des Moines campus	West Des Moines Warren/Madison, IA	已批准或获许可 / approved-permitted active phased expansion; no new-building power-on found	未披露 sq ft=1700000; land acres=200; phases=4	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: West Des Moines permit/inspection register; building-level completion and service dates
USDC-0014 · Edged Chicago second facility IL-AURORA-EDGED-CHI · Edged Chicago second facility	Aurora Kane, IL	场地施工 / construction under_construction; power-on and service date not found	未披露 critical MW=72; buildings=1	Phase3 authoritative action layer + Phase2 enrichment source Gap: City permit/inspection record; shell completion and initial-service evidence
USDC-0015 · STACK CHI02 IL-ELK-GROVE-STACK-CHI02 · Elk Grove Village 36MW / STACK CHI02	Elk Grove Village Cook, IL	场地施工 / construction under_construction; no public energization or completion found by cutoff	未披露 critical MW=36; buildings=1; sq ft=263000	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Elk Grove building permit and inspection record; ComEd energization/interconnection milestone
USDC-0016 · Joliet Technology Center IL-JOLIET-POWERHOUSE-HILLWOOD · Hillwood data center campus / Joliet Technology Center	Joliet Will, IL	已批准或获许可 / approved-permitted locally_approved/annexation-agreement stage; building permits not yet evidenced	未披露 buildings=24; sq ft=6936000; land acres=795	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Certified council minutes/roll call; final PUD plats and building permits
USDC-0017 · Morris Technology Park IL-MORRIS-TRACT-TECHPARK · Morris Technology Park	Morris Grundy, IL	已宣布 / announced announced/entitled; no construction or permit evidence located	未披露 planned load MW=1000; sq ft=29000000; land acres=343	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Morris permit portal and zoning ordinance; ComEd construction/interconnection filing
USDC-0018 · Meta Jeffersonville data center IN-JEFFERSONVILLE-META · Meta Indiana data center / Meta Jeffersonville data center	Jeffersonville Clark, IN	地方程序 / local process construction/commissioning target in 2026; full campus completion not separately reported	未披露 investment USD=\$800,000,000; sq ft=7000000; buildings=1	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Meta or Clark County commissioning notice; building permit closeout
USDC-0019 · Microsoft La Porte campus / Radius Industrial Park IN-LAPORTE-MICROSOFT · Microsoft La Porte campus / Microsoft La Porte campus / Radius Industrial Park / Microsoft LaPorte campus	La Porte La Porte, IN	场地施工 / construction under_construction; phased campus; not live/full complete	未披露 investment USD=\$1,000,000,000; initial_site_acres=489; buildings_planned=17; phase_one_data_centers=6; square_feet_initial=245000	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: La Porte permit portal and annexation ordinances; Microsoft first-building power-on
USDC-0020 · Meta Lebanon campus IN-LEBANON-META · Boone County Meta AI campus / Meta Lebanon AI data-center campus / Meta Lebanon campus	Lebanon Boone, IN	场地施工 / construction under_construction; no live or full-completion milestone found	未披露 planned_capacity_GW=1; sq ft=4000000; investment USD=\$10,000,000,000	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Lebanon/Boone permit and utility construction records; first building energization
USDC-0021 · Project Maize / Google Michigan City data-center redevelopment IN-MICHIGAN-CITY-GOOGLE-MAIZE · Google Indiana in-development site / Google Michigan City data center / Project Maize	Michigan City La Porte, IN	已批准或获许可 / approved-permitted under development/rehabilitation; no power-on evidence	未披露 reuse_building_square_feet=400000	Phase3 authoritative action layer + Phase2 enrichment source source source source source source Gap: Google site permit/tenant confirmation; commissioning or utility energization record
USDC-0022 · Microsoft St. Joe Farm campus / Granger data center IN-MISHAWAKA-MICROSOFT-STJOE · Microsoft Granger data center / Microsoft St. Joe Farm campus / Microsoft St. Joe Farm campus / Granger data center	Mishawaka/Granger St. Joseph, IN	地方程序 / local process locally approved/in development; construction start not independently confirmed	未披露 land acres=939; buildings=5	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Certified rezoning/plat approval; building permits and construction start

Master / project	Location	Status	Companies · capacity/scope	Provenance · source links
USDC-0023 · Google Morgan County data center IN-MORGAN-GOOGLE · Google Mooresville campus / Google Morgan County data center	not publicly pinned Morgan, IN	已宣布 / announced announced/early site development; city and permit not pinned	未披露 investment USD=\$2,953,000,000	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Morgan County parcel and municipal host; Google announcement with site details
USDC-0024 · AWS Project Rainier / Amazon New Carlisle campus IN-NEW-CARLISLE-AWS-RAINIER · AWS Indiana Enterprise Center / AWS New Carlisle / Project Rainier campus / AWS Project Rainier	New Carlisle St. Joseph, IN	已批准或获许可 / approved-permitted phased construction/operations; campus completion not expected by cutoff	未披露 investment USD=\$11,000,000,000; MW=2200	Phase3 authoritative action layer + Phase2 enrichment source source source source source source Gap: AWS site-level permit/building register; St. Joseph County certified incentive and permit records
USDC-0025 · RadiusDC Indy I IN-PLAINFIELD-RADIUS-INDY1 · Plainfield edge colocation campus / RadiusDC Indy I	Plainfield Hendricks, IN	已宣布 / announced announced/pre-construction; construction date and permits not found	未披露 planned MW=24	Phase3 authoritative action layer + Phase2 enrichment source Gap: Plainfield permit and utility interconnection; groundbreaking and construction status
USDC-0026 · Heartland Industrial Park / Potentia Sullivan County campus IN-SULLIVAN-POTENTIA-HEARTLAND · Heartland Industrial Park / Heartland Industrial Park / Potentia Sullivan County campus / Potentia Sullivan County campus	not publicly pinned Sullivan, IN	已宣布 / announced under construction for park infrastructure; tenant data-center buildings not individually identified	未披露 tenant_investment_USD=\$65,000,000,000; construction_jobs=2750; permanent_jobs=500	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Sullivan County parcel and tenant permits; utility load/interconnection filings
USDC-0027 · Beale Infrastructure De Soto campus KS-DE-SOTO-BEALE · Beale De Soto data center campus / Beale Infrastructure De Soto campus / Mount Sunflower Data Facility	De Soto Johnson County, KS	已宣布 / announced announced/site-preparation claimed; construction not independently verified	未披露 investment USD=\$3,000,000,000; buildings=4; sq ft=10000000; phase_one_buildings=2	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: De Soto/Johnson County zoning and permit files; Evergy service/interconnection milestone
USDC-0028 · Core Scientific Calvert City expansion KY-001 · Calvert City high-density data center / Core Scientific Calvert City / Core Scientific Calvert City expansion	Calvert City Marshall County, KY	地方程序 / local process major expansion planned; current physical stage not independently verified	Core Scientific · CoreWeave in company portfolio, not necessarily this phase MW=150; planned_expansion_mw=300	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: Core project update, Marshall County permits, utility service agreement and building/commissioning record.
USDC-0029 · TenKey LandCo Simpson County AI campus KY-002 · 421 Steele Road proposal / Franklin-Simpson Data Storage and Service Center / TenKey DataCenter	Franklin Simpson County, KY	已批准或获许可 / approved-permitted approved preliminary plan; building permit and construction not verified	TenKey LandCo LLC · undisclosed · proposed on-site power buildings=3; square_feet_per_building=200000	Phase3 authoritative action layer + Phase2 enrichment source source source source source source source source Gap: Simpson County minutes/plan, air and power permits, building permits and construction start.
USDC-0030 · Meta Hyperion AI supercluster / Richland Parish Meta data center LA-001 · Evest LLC / Hyperion / Laidley LLC project	near Rayville Richland Parish, LA	场地施工 / construction under construction with material expansion; no full-campus completion	Meta · Blue Owl JV · Entergy Louisiana MW=2000; expanded_compute_gw=5; investment USD=\$10,000,000,000; expanded_regional_investment_usd=\$50,000,000,000; sq ft=40000000; acres=4000	Phase3 authoritative action layer + Phase2 enrichment source source source source source source source source Gap: Parish permits, Entergy rate/interconnection filings, air/water approvals, building phases, first-power and commissioning evidence.
USDC-0031 · Rowan Frederick / Bauxite I MD-001 · Bauxite I / Quantum Frederick phase / Rowan Digital Infrastructure	Frederick Frederick County, MD	场地施工 / construction under construction	Rowan Digital Infrastructure · Quinbrook · Catellus/Quantum Frederick · hyperscale customer undisclosed · Potomac Edison context MW=300; buildings=3; financing_usd_reported=975000000	Phase3 authoritative action layer + Phase2 enrichment source source source source source source source source Gap: MDE/Catellus building permits, substation/service dates, shell completion and first-power records.
USDC-0032 · Amazon Data Services Bauxite II / 3250 Digital Drive MD-002 · Amazon 3250 Digital Drive / Amazon Data Services BWI / Amazon Data Services Bauxite II	Frederick Frederick County, MD	场地施工 / construction permitted/new campus; physical stage not fully sourced	Amazon Data Services/AWS · Catellus/Quantum Frederick · AWS buildings=4	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Building/site permits, water/stormwater approvals, utility service, shell, CO and first workload evidence.
USDC-0033 · Hyperscale Data Michigan campus MI-DOWAGIAC-HYPERSCALE-DATA · 415 East Prairie Ronde Street / Hyperscale Data Michigan campus	Dowagiac Cass, MI	地方程序 / local process major expansion/land assembly; physical construction and MW not publicly established	未披露 land acres=48.5	Phase3 authoritative action layer + Phase2 enrichment source Gap: Cass County/Dowagiac permit record; campus MW and construction milestone
USDC-0034 · The Barn MI-SALINE-BARN-STARGATE · Green Chile Ventures / Related Digital Saline Township / Saline Stargate campus	Saline Township Washtenaw, MI	场地施工 / construction under_construction; no energization or completed building verified	未披露 planned MW=1383; reported_capacity_GW=1; buildings=3; building_square_feet=550000; land acres=575	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Official IFC minutes/certificate; EGLE/water/building permits and first energization
USDC-0035 · Cloud HQ MN-CHASKA-CLOUDHQ · Cloud HQ / CloudHQ Data Center / West Creek Corporate Center data center	Chaska Carver County, MN	已批准或获许可 / approved-permitted locally preliminary-approved but stalled before final application; no construction	未披露 sq ft=1500000	Phase3 authoritative action layer + Phase2 enrichment source Gap: Final application and developer identity/capacity; permit or withdrawal record
USDC-0036 · Google Hermantown campus MN-HERMANTOWN-GOOGLE · Arrowhead Station data center / Google Hermantown campus / Hermantown Google data center	Hermantown St. Louis County, MN	地方程序 / local process announced/under environmental and land-use review; construction paused/not evidenced	未披露 未披露	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Final AUAR and rezoning decision; Google/Mortenson permit and utility records
USDC-0037 · Microsoft Monticello technology campus MN-MONTICELLO-MICROSOFT-FRATTALONE · Frattalone technology campus / Microsoft Monticello technology campus / Monticello Industrial technology campus	Monticello Wright County, MN	已批准或获许可 / approved-permitted application/land-use review; no final site-plan approval or construction confirmed	未披露 sq ft=3000000	Phase3 authoritative action layer + Phase2 enrichment source source source Gap: Formal applicant and final land-use decision; permit and construction record
USDC-0038 · Scannell Technology Park MN-MONTICELLO-SCANNELL · Monticello DCPUD / Scannell Properties technology park / Scannell Technology Park	Monticello Wright County, MN	已批准或获许可 / approved-permitted formal application under review; not permitted/under construction	未披露 sq ft=13000000; land acres=106	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: Planning Commission/Council decision; CUP, building and utility permits
USDC-0039 · Google Pine Island data center MN-PINE-ISLAND-GOOGLE · Google Pine Island campus / Google Pine Island data center / Pine Island hyperscale data center	Pine Island Goodhue County, MN	地方程序 / local process announced/locally processed; construction halted by court order; not energized	未披露 clean_energy_support_MW=1900	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: Goodhue County court order and environmental review documents; Google permit and restart/energization evidence
USDC-0040 · Meta Rosemount data center MN-ROSEMOUNT-META · Meta Minnesota campus / Meta Rosemount campus / Meta Rosemount data center	Rosemount Dakota County, MN	地方程序 / local process under_construction; no public MW or energized milestone located	未披露 completion_target=2026	Phase3 authoritative action layer + Phase2 enrichment source Gap: Rosemount permit and inspection record; Meta service/occupancy milestone
USDC-0041 · Nebius AI factory MO-INDEPENDENCE-NEBIUS · Eastgate Commerce Center campus / Nebius AI factory / Nebius Data Center Phase 1	Independence Jackson County, MO	场地施工 / construction under_construction; no energized/live milestone found	未披露 planned_capacity_GW=1; sq ft=2250000; land acres=400; investment USD=\$6,600,000,000	Phase3 authoritative action layer + Phase2 enrichment source source source source source source Gap: Independence permits and power-plant/utility records; first building service date
USDC-0042 · Project Mica MO-KC-GOOGLE-MICA · Google Kansas City Northland campus / Google Kansas City, Missouri data center / Project Mica	Kansas City Clay County, MO	地方程序 / local process under construction/active development; no live/full completion found	未披露 investment USD=\$10,000,000,000; land acres=500	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Kansas City building permits and KC Water record; first energized building
USDC-0043 · Meta Kansas City Northland campus MO-KC-NORTHLAND-META · Kansas City Northland Meta project / Meta Kansas City Northland campus / Meta Kansas City data-center lead	Kansas City Clay County, MO	已宣布 / announced publicly identified regional lead; site-level approval/construction not validated	未披露 未披露	Phase3 authoritative action layer + Phase2 enrichment source source Gap: Meta official site announcement; Kansas City/Clay County permit and incentive record
USDC-0044 · Project Spade MO-NEW-FLORENCE-GOOGLE-SPADE · Google New Florence data center / Google New Florence/Montgomery County campus / Project Spade	New Florence area Montgomery County, MO	地方程序 / local process announced/planned; no permit or construction evidence located	未披露 buildings=2	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: Montgomery County/New Florence host parcel; zoning, environmental and building permits
USDC-0045 · Compass Meridian hyperscale campus MS-001 · Compass Datacenters Jan I LLC / Compass Meridian hyperscale campus / Lauderdale County Compass campus	Meridian Lauderdale County, MS	场地施工 / construction under construction	Compass Datacenters · future tenants undisclosed · Mississippi Power MW=320; investment USD=\$10,000,000,000; buildings=8	Phase3 authoritative action layer + Phase2 enrichment source source source source Gap: CPCN order, county permits, building shells, utility energization and first-service records.

Master / project	Location	Status	Companies · capacity/scope	Provenance · source links
USDC-0046 · AVAIO East Metropolitan Center MS-002 · AVAIO Digital Taurus / AVAIO East Metropolitan Center / Brandon data center campus	Brandon Rankin County, MS	地方程序 / local process announced/early development; construction not validated	AVAIO Digital · Entergy Mississippi investment USD=\$6,000,000,000	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: Rankin County site plan/permit, Entergy service, environmental and construction records.
USDC-0047 · xAI MACROHARDRR / Colossus 2 Southaven MS-003 · Colossus 2 / Colossus 2 Southaven / SpaceXAI Southaven power site	Southaven DeSoto County, MS	地方程序 / local process retrofit/new phase under development; operations and air-power status disputed	xAI/SpaceXAI · xAI · onsite power; DeSoto County/Southaven compute_gw=2; investment USD=\$20,000,000,000; buildings=1; basis=retrofit plus nearby power-plant site	Phase3 authoritative action layer + Phase2 enrichment source source source source source Gap: MDE air permits/enforcement, building/retrofit permits, generator installation, utility/onsite power commissioning.

US-VA-GOOGLE-NOVA-EXPANSION-2024	excluded_aggregate	multiple counties/campuses	source phase2/national_all_company_seed.json

▼ Source conflict audit: 1 blocker history + 13 material findings

The preserved pre-repair audit recorded one Gantt-coverage blocker. The accepted Phase4 v2 parent receipt passes after the all-project candidate schedule was built; the material findings below remain disclosures.

▼ F4-001 · blocker · gantt_coverage

Project IDs:

Conflicting claims: The brief scopes the public-project deliverable to a 2024–2030 Gantt. The only machine-readable construction-cycle schedule covers seven benchmark projects, not the 186 accepted Phase 3 county-pair projects; no stable-ID crosswalk or all-project schedule is supplied.

Safest resolution: Do not label the current schedule as a comprehensive project Gantt. Either build evidence-backed bars/crosswalks for the accepted projects or explicitly label the output as seven observed benchmark schedules and disclose that county-project coverage is absent.

Disclosure required: yes

▼ F4-002 · material · action_date_precision

Project IDs: US-PA-AWS-FAIRLESS-HILLS-2025, US-NJ-QTS-EAST-WINDSOR-2026, US-PA-AWS-SUSQUEHANNA-2024, US-UT-JOULE-DELTA-2026

Conflicting claims: Phase 3 metadata describes date validation, but 150 of 513 actions omit date_precision, four use non-enum custom values, and 11 are null or explicitly undated. Month-only and undated evidence is mixed into action records without a uniform precision enum, which can make a Gantt imply day-level certainty.

Safest resolution: Normalize precision mechanically to the stated evidence: day/month/year/undated; retain date_text for month-only or accessed-page records and never invent a day. Treat missing precision as unknown until normalized.

Disclosure required: yes

▼ F4-003 · material · gantt_schema_conformance

Project IDs:

Conflicting claims: The schema permits date_precision day/month/season/year/unknown, status actual/forecast/announced/complete/cancelled/unknown, and basis observed/official_forecast/planning_range/inference/announcement_only. Observed rows use values such as official_release, developer_release, forecast_at_source_date, actual_statement, announcement, month_start_approximation, month_end_approximation, and year_end, and omit required evidence_note.

Safest resolution: Map source labels to the declared enum without changing factual meaning, preserve the original label in an evidence note, and use null/unknown where mapping would overstate precision.

Disclosure required: no

▼ F4-004 · material · source_tier_reproducibility

Project IDs:

Conflicting claims: The four regional Phase 2 sets contain 356 source records with T1–T5 coverage, but the field type is inconsistent across regions. Phase 3 action and project URLs are not linked to source tiers, so a final source-domain/tier mix cannot be reproduced from the accepted action set.

Safest resolution: Normalize tier values to one representation and preserve source IDs/URLs when carrying evidence into Phase 3; report the current tier mix as Phase 2-only, not as a Phase 3 action-evidence mix.

Disclosure required: yes

▼ F4-005 · material · source_traceability

Project IDs: IN-NEW-CARLISLE-AWS-RAINIER, IN-JEFFERSONVILLE-META, IN-LEBANON-META, IN-LAPORTE-MICROSOFT, IN-MISHAWAKA-MICROSOFT-STJOE, IN-MICHIGAN-CITY-GOOGLE-MAIZE, IN-MORGAN-GOOGLE, IN-PLAINFIELD-RADIUS-INDY1, IN-SULLIVAN-POTENTIA-HEARTLAND, OH-BOWLING-GREEN-META, OH-FAYETTE-AWS, OH-SIDNEY-AWS, OH-MILLERSPORT-VANTAGE-OH2, OH-JOHNSTOWN-COLOGIX, OH-NEW-ALBANY-VANTAGE-OH1, OH-PIQUA-J5-SHAYTURA, OH-PORTS-PIKE-SBENERGY, OH-LORDSTOWN-STARGATE, OH-VAN-WERT-QTS, US-PA-AWS-SUSQUEHANNA-2024, US-PA-AWS-FAIRLESS-HILLS-2025, US-PA-COREWEAVE-LANCASTER-2025, US-PA-PAX1-MIDDLESEX-2025, US-PA-HOMER-CITY-2025, US-PA-TECFUSIONS-KEYSTONE-CONNECT-2025, US-NJ-NEBIUS-DATAONE-VINELAND-2025, US-NJ-COREWEAVE-KENILWORTH-2025, US-NJ-QTS-EAST-WINDSOR-2026, US-NJ-NJFX-WALL-AI-HALL-2025, US-NY-STREAM-STAMP-2025, US-NY-NORTH-EAST-DATA-NIAGARA-2023, US-NY-NFR-NIAGARA-DIGITAL-CAMPUS-2024, US-NY-TERAWULF-LAKE-MARINER-CB5-2025, US-WA-MICROSOFT-MWH08-2024, US-WA-BITFARMS-MOSES-LAKE-2026, US-WA-ADVANCE-PHASE-WALLULA-2024, US-WA-SEATTLE-CITY-LIGHT-5-SITES-2026, US-WA-MICROSOFT-MALAGA-EAST-WENATCHEE-2025

Conflicting claims: Phase 3 requires project-level source URL coverage for most county-pair files and achieves 452 URLs overall. The Ohio/Indiana and Pennsylvania/New Jersey/New York/Washington files rely on action-level URLs only, reducing schema uniformity and making row-level source aggregation non-equivalent across the 186 projects.

Safest resolution: Retain and expose each action primary_url, but add a derived project-level source list before claiming uniform source coverage; do not treat the missing field as absence of evidence.

Disclosure required: yes

▼ F4-006 · material · milestone_date_conflict

Project IDs: ND-ELLENDALE-APPLIED-POLARIS-FORGE

Conflicting claims: Phase 2 records an inspection on 2026-03-19. Phase 3’s official-source review records the inspection/release on 2025-03-19 and explicitly identifies the Phase 2 date as a data-entry error.

Safest resolution: Use 2025-03-19 for the inspection and remove the unsupported 2026-03-19 duplicate; retain the correction note in provenance.

Disclosure required: yes

▼ F4-007 · material · milestone_phase_crosswalk

Project IDs: US-TX-FRONTIER-ODESSA-2024, US-TX-FRONTIER-ABILENE-2025

Conflicting claims: The Phase 1 Frontier record presents a 2025–2027 TDLR registration and Oracle’s 1H27 delivery statement. The Phase 3 Texas record presents a separate 2026–2028 TDLR registration and says physical construction/first-building status is incomplete. The artifacts do not provide an address/phase crosswalk.

Safest resolution: Keep the two TDLR registrations as separate candidate phases/buildings until an owner/address crosswalk is established; do not merge them into one 2025–2028 bar or treat registration completion as energization.

Disclosure required: yes

▼ F4-008 · material · capacity_unit_and_identity_conflict

Project IDs: US-AZ-EDGECORE-MESA-EXPANSION-2024, US-AZ-EDGECORE-MESA-2024

Conflicting claims: The national seed uses 1,900 MW for an EdgeCore Mesa expansion ID. The regional and county evidence use a different stable ID and support \$1.9B/2.1M square feet, not 1.9 GW.

Safest resolution: Keep MW null for the accepted regional project, preserve \$1.9B as investment, and resolve the national-to-regional ID crosswalk before aggregating; never convert dollars or square footage into MW.

Disclosure required: yes

▼ F4-009 · material · capacity_status_conflict

Project IDs: US-OK-CORE-SCIENTIFIC-MUSKOGEE-2025, US-OK-CORE-SCIENTIFIC-MUSKOGEE-2024

Conflicting claims: The seed tracker reports 1,500 MW and under construction. The regional/county evidence supports a 100 MW first phase and 82.5 MW follow-on, with no completion or energization finding.

Safest resolution: Render 100 MW as the evidenced phase and 82.5 MW as a separate target/follow-on; retain 1,500 MW only as an unverified tracker lead and do not label it live or committed.

Disclosure required: yes

▼ F4-010 · material · capacity_scope_conflict

Project IDs: US-UT-JOULE-DELTA-2026, US-UT-CREEKSTONE-DELTA-2025

Conflicting claims: Tracker/seed-scale values can be read as 4 GW and 2 GW under construction. Government inventory and county review distinguish 455 MW and 220 MW Phase 1 scopes from 4,000+ MW and 9,700+ MW proposed expansions.

Safest resolution: Use separate phase and ultimate-buildout fields; chart only the evidenced Phase 1 construction status and label full-campus values as proposed. Do not sum or substitute tracker-scale values.

Disclosure required: yes

▼ F4-011 · material · building_count_scope_conflict

Project IDs: US-OR-AWS-BOARDMAN-2024

Conflicting claims: Phase 2 describes a five-building expansion. Phase 3 county findings enumerate four data-center buildings plus support structures and identify the five-building description as inconsistent.

Safest resolution: Use the county-approved description—four data-center buildings plus support structures—for government-scope reporting; retain five only as an attributed Phase 2 shorthand if its source definition is shown.

Disclosure required: yes

▼ F4-012 · material · possible_duplicate_identity

Project IDs: US-OK-META-TULSA-2026, US-OK-ANTHEM-TULSA-2024

Conflicting claims: Meta’s Tulsa record identifies Project Anthem as an alias and has a state groundbreaking. The separate Anthem record carries an unverified 800 MW trade figure and no primary record, while warning it may be the same project.

Safest resolution: Hold Anthem as an unresolved alias/lead and do not add its 800 MW to Meta Tulsa or count it as a separate campus until legal-entity and parcel evidence resolves identity.

Disclosure required: yes

▼ F4-013 · material · possible_duplicate_identity

Project IDs: US-WY-RELATED-COREWEAVE-CHEYENNE-2025, US-WY-GOOGLE-PROJECT-JADE-CHEYENNE-2026

Conflicting claims: One Cheyenne record is a state-supported Related/CoreWeave campus up to 302 MW and under construction. The other is Google/Jupiter Star Project Jade/Tembo at 2,700 MW with unresolved parcel/developer identity; the same-county location does not establish two independent campuses.

Safest resolution: Keep records separate for provenance but flag the identity as unresolved; do not sum 302 MW and 2,700 MW or infer construction status for Project Jade from the Related record until parcel evidence is available.

Disclosure required: yes

▼ F4-014 · material · possible_duplicate_identity

Project IDs: US-UT-TRACT-EAGLE-MOUNTAIN-2024, US-UT-TRACT-EAGLE-POLE-PONY-2026

Conflicting claims: Tripletail and Pole Canyon/Pony have separate stable IDs and reported capacities of 7,000 MW ultimate and 1,820 MW proposed. Phase 2 explicitly says the staff-report layout and seed names create possible overlap and prohibits summing without a parcel crosswalk.

Safest resolution: Do not aggregate the two capacity figures or render them as independent campuses; preserve the overlap warning until parcel and case identifiers are cross-walked.

Disclosure required: yes

方法、来源与局限 / Method, sources & limitations

Evidence hierarchy

地方/州 agenda packets、minutes、ordinances、resolutions、permit portals、utility/regulator filings 优先；其后为公司/投资者披露、主流与专业媒体、地方报道；aggregator 只作 discovery lead，vote inference prohibited。

Phase4 provenance

Phase3 action layer authoritative；regional rows exact-ID enrichment；seed rows only on explicit evidence merge。所有 208 master IDs 唯一；source links 由 records 与 actions 的 HTTPS URL union 保留。

Source metrics

667/667 unique URLs retained in masters or exclusions
643 Gantt input URLs
513/513 action URLs valid
452/186 project-level source URL rows present
38 rows had URLs derived from actions
356 Phase2 source records / 212 domains

Phase2 tiers only: T1 121 · T2 94 · T3 78 · T4 60 · T5 3

Phase2 tiers 的诚实标签

T1/T2/T3/T4/T5 统计只代表 Phase2 source records （356 records / 212 domains），不能冒充 Phase3 action evidence tiers，Phase3 action rows 未统一携带 tier；本报告展示 URLs 与 provenance layer。

Mandatory audit corrections / 必须披露的纠偏

▼ 日期、身份与范围纠偏

- ND Ellendale inspection = **2025-03-19**，不是 2026-03-19。
- Frontier Odessa 与 Abilene registrations 分开保留；不把两条 registration 合成一条时间线或当作 energization。
- EdgeCore Mesa **\$1.9B ≠ 1,900 MW**；MW 只有在 evidence 支持时显示。
- Muskogee = **100 MW + 82.5 MW follow-on**；seed 的 1,500 MW tracker 值未验证。
- Utah 项目区分 phase 与 ultimate scope；不把 ultimate scale 当作当前施工负荷。
- Boardman = **四栋 data buildings + support structures**；“five-building”只作为 attributed Phase2 shorthand，不作无条件事实。

▼ 未解决 identity families

- Tulsa Anthem / Meta remains separate and unresolved。
- Cheyenne Related/CoreWeave vs Project Jade remains separate and unresolved。
- Eagle Mountain Tripletail vs Pole Canyon/Pony remains separate and unresolved。
- 上述 unresolved records 不求和、不合并 MW。

▼ SC-004 QTS York

SC-004 stays **approved/permitted** with no construction anchor. Commercial reporting is medium-confidence actual advancement/site-preparation support; it is not proof of site work, building approval, completion, energization, or service.

Frozen source files and SHA-256

以下清单由构建器读取并逐一计算 SHA-256；HTML 只列相对 artifact labels，不含本机绝对路径。

QA receipt

Parent v2 receipts: parent_master_validation_v2.json = PASS, parent_gantt_validation_v2.json = PASS。本次构建还执行 HTML parse、inline JSON parse、counts、unique master IDs、HTTPS-only source links、banned-string scan 与 output SHA-256。
